

# *ENAB* **LED** *PROGRAM*

# *ENABLED*

## *PROGRAM*

*enabLED is a special programme, offered by DIWEKIYO, which allows the replacement of traditional lighting systems with LED lights without any capital expenditure on behalf of the client. This replacing could result in as much as 93% less energy consumption.*

### ***HOW IT WORKS***

*DIWEKIYO funds the project, by sponsoring the installation replacement and covers the investment costs over a period of time out of the savings resulting from the reduced energy consumption. The repayment of the new LED installation is a simple and straight forward process, which does not cause any budgetary strain on the client.*

*The client repays the installation of the LED light is periodic installments, determined by the energy savings achieved. In essence the old electricity consumption is equal to, or more than the new electricity consumption and the repayment of the LED installation.*

### ***HOW THE PROCESS GOES***

- 1. Identify the needs of your business, household or facility*
- 2. Calculate the needs and the capacity of your current lighting network and the benefits of the enabLED programme using our Energy Calculator*
- 3. Contact us to schedule a consultation with a specialist from our team; we consult you and offer you the best option for your situation*
- 4. We make a thorough inventory of your lighting systems to identify concrete needs and offer the best possible solution including light planning and custom design*
- 5. Review our proposal*
- 6. Become enabLED*

## ***FINANCING OPTIONS***

- 1. 100% investment 'Limit of investment – 5000EU*
- 2. Co-funding with client*
- 3. Institutional projects*

## ***BENEFITS***

*Current lighting systems have many disadvantages, including short lifespan, loss of luminosity and efficiency over time and harmful emission of carbon dioxide (CO2)*

*The immediate benefits of our enabLED program are better working and environmental conditions and include:*

- + Upgraded lighting network*
- + Reduced operational costs*
- + Decrease in maintenance costs due to long product life*
- + Automatic repayment schedule that does not affect the budget of the client*

## ***ABOUT DIWEKIYO***

*Founded in 2012, DIWEKIYO Solutions is a young and dynamic organisation. We work with clients and partners from Austria and other European countries to provide qualitative and customised end-to-end solutions to our clients.*
